Find out about this journal

Welcoming submissions

The *Journal of Apicultural Research* was founded in 1962 by The International Bee Research Association, and is a peer-reviewed scientific journal publishing important research on bees. It publishes 5 issues per year.

Editors: Dr Maria Bouga (IBRA, Agricultural University of Athens, Greece) &

Dr Melanie Parejo (IBRA, University of the Basque Country, Spain)

Aims & Scope

The *Journal of Apicultural Research* publishes original research articles, original theoretical papers, notes, comments and authoritative reviews on scientific aspects of the biology, ecology, natural history, conservation and culture of all types of bee (superfamily Apoidea). This includes bee breeding, rearing, maintaining and management, as well as the study of bee hive products. Specifically, articles within the following classifications can be submitted: Sociobiology and behaviour; Ecology and conservation; Evolution, phylogeny, and biogeography; Genetics and breeding; Pathology and parasitology; Bee management; Hive product science; Toxicology; and Physiology, biochemistry, and chemical ecology.

Submit to our Special Issue

We invite you to submit to our Special Issue titled
**"Advancing Analytical Methods for Honey
Authentication and Adulteration Detection"**

Abstract deadline - **31 January 2026**

Manuscript deadline - **01 June 2026**
